kitchen couture for the domestic goddess

Housewives...be Desperate no more!

Introducing Smitten...the new range of kitchen couture that is here to turn your kitchen into kitsch-en!

At Smitten we do not domestically discriminate, so you'll be Smitten with our products whether you're a culinary glamourpuss, blossoming baker or microwave meal mama!

Smittenista's know that cooking is chic and one needn't feel frumpy in the kitchen anymore. So whip up a soufflé or reheat in style, the choice is yours... but prepare to break hearts while doing so!

Smitten Signature Aprons... Far from what your Nanna wore, but styled with all the glamour of the 1950's, Smitten aprons are saucy little numbers set to keep the sauce in the pan and off your new frock! Constructed with a slimming netted girdle to flatter one's curves, our "kitsch-en corset technology" will bring the heat back into your kitchen!

Smitts... Ultra convenient, two handed oven mitts are delightfully stylish, reasonably priced and actually keep the heat out! Smitts are sensitive souls, not to be hidden away in kitchen drawers, but displayed with pride... Paired with a sexy Smitten Signature Apron, Smitts complete the ensemble and make you the envy of your neighborhood! All Smitten products are 100% machine washable and 100% Australian Made.

Smitten is... happy times at home with good friends, great wine and full tummies all round. Smitten is a charmed life indeed!
